COLLECTION	DECKING
ORIGIN	BRAZIL
KNOT CONTENT	MINIMAL
HOLE CONTENT	MINIMAL
HEARTWOOD CONTENT	HEAVY HEART
CHECKING	MINIMAL
GRAIN	MIXED
GRADING	SELECT
LEED CREDITS	_____

## IPE DESCRIPTION

Ipe Decking.

Also known as ironwood due to its extreme hardness. It is a great lumber for outside applications as it is naturally rot and insect resistant. It is a beautiful brown lumber with red and amber hues coming through. It also has a stunningly tight grain that will make this lumber a must have for your next deck.

## OPTIONS & UPGRADES

- Edge Grooving Option for hidden fastener application
- Thickness 1" (5/4") Option —Available upon request
- Thickness 1 1/2" (8/4") Option —Available upon request
